Subject Docket 04-0140

Aloha!

This forwarded message has been three days in the making due to the inaccessibility of AOL...We are all registered voters here in the State of Hawaii.

The Carlyle Group is a Defense Contractor Investment Company that makes its' money in the "War Business." This "company" is more akin to a Cabal or Cartel with the likes of George HW Bush; Frank Carluci: ex-Pentagon; John Majors: ex-Prime Minister and British Petroleum; James BakerII, etc. James BakerII is the lifelong breadwinner for The Bush Family and the head legal counsel/organizer of the 2000 election coup in Florida; Georgia; Nebraska and Minnesota.

The Carlyle Groups' original funding source came from the Bin Laden Family of Saudi Arabia. Yes, I did say the Bin Laden Family who have been in Business with the Bush Family since before George W. Bush's failed days as CEO of Harkin Oil Company. Through the auspices of his father, George HW Bush then president, the Bin Laden Family infused large amounts of money into the coffers of Harken Oil Company in such a manner that it temporarily inflated the price of the stock ("fuzzy math") that allowed George W. Bush to sell his shares of Harken stock for \$850,000 before the same company suddenly failed. This windfall allowed George W. Bush to purchase his shares of the Texas Rangers baseball team that he later sold for \$12M and the rest is history. Martha Stewart was not so fortunate to have "Daddy Bush" pulling the strings for her. Martha Stewart is a Democrat. Martha Stewart makes money the old fashioned way...she earns it.

The Carlyle Group and the Bush Family have made billions of dollars on the "War in Afganistan and the War in Iraq." Both wars being "fought concurrently" and for the "freedom of Democracy," but, who is indeed the enemy and who is most directly benefiting from this? Yes, it's the Carlyle Group; The Bush Family and Israel...We have been following The Bush Family money trail since election night 1999.

The "Anthraxed" US Congress rubber stamps hundreds of billions of dollars which ultimately go into the hands of the comptroller of the Pentagon...an Israeli National by the name of Rabbi Dov. Zakeim who voluntarily terminated employment with the Pentagon last Spring just as the FBI started its' espionage sting operation that is just now developing into a full blown investigation, but getting very little media attention because of the "Republican National Convention."

After three years at comptroller, this same person spent large mind numbing amounts of tax payer money with "no one looking". 1.3 trillion dollars are missing along with airplanes; tanks and munitions. The money goes to Israel and Halliburton through the Baker/Cheney/Bremer, etc. Cartel.

And guess what? The Carlyle Group suddenly has lots of cash and they purchase CRX shipping lines out of Atlanta, Ga. This is one of the shipping companies that services our State of Hawaii!!

Next, I understand that Michael Powell and the FCC boys have recently "OKed" the purchase of Verizon Telecommunications Systems of Hawaii...lock, stock and barrel and right down to all the telephones; telephone lines and cables; etc., etc., etc. by this very same "Carlyle Group."

Are you sure you want to do this?

Whoever owns the cable and telephone lines can tap into anything they want to...how about bank codes for electronically transferring large sums of Hawaii money illegally out of our State and into foreign off shore accounts? "Can't happen it's Federally insured/protected?"...What if the perpetrator is someone inside the gov't performing the illicit act (under the guise of "the Patriot Act") so that the Washington, DC beaureacratc Feds do not even know what is happening and the criminal is hiding behind a complicit president, congress and media?...or so they say, but the bottom line the money disappears anyway!?!

Or If the State of Hawaii utilizes a central GEMS or similar central vote counting computer or gathers any of the voting data from a central computer then these systems can be easily and instantly be recoded without your knowing by anyone anywhere with any computer by whoever owns the telephone and cable communication lines!! The "recoded" votes can instantly be Republicans over Democrats. This is why the United Nations was invited to monitor our November presidential election.

The simple fact is that the Corporations are counting and controlling the vote!!

Millions of votes can be changed in seconds with illicit and fraudulent voter numbers i.e. "a last minute surge of votes beat the ever popular Minnsota Democrat Walter Mondale by a polirical nobody...Republican Coleman; Chambliss(R) has a "last minute surge" and beats popular Democrat and triple Vietnam amputee Max Cleland in Georgia and "last minute surge puts Chuck Hagel a republican challenger into the senate beating long time popular Democratic incumbent."...How many times have you heard this?

If you own the telecommunication lines in this state the owner would have a monopoly. If the telecommunications lines in Hawaii are owned by a Defense Contractor Information Company you will end up with more Military and less tourists. Carlyle will make sure they get all the votes they need to further this absurd and dangerous "New World Order" or "War on Terror" agenda...what happened to the "Best for Hawaii agenda?"

The tourists go home after spending their money...the Military is harder to clean up after and they do not go home so easily. We are still cleaning up after Kahoolawe...our whales are being beached everywhere in the State because of Sonar testing and our overall quality of life here is being threatened by the presence of a larger military force.

Hawaii must maintain this stable Democratic and wonderful Island State. Good Karma exists here because of our stable Democratic Majority. We do not need "change" as preached by these Republican neo-facists. People are moving here because of our political stability. Ask the family who

just moved here from Idaho. The Republicans there are all millionaires and controll all branches of government there including the Governors' office...the family farms are all disappearing for quick real estate condo projects that make the developers' rich and those in Idaho sate governments that collect the fees and issue the permits. Water rights are being taken away or heavily taxed and the quality of education is in the toilet and at the same time very expensive. The natural environment is being exploited for the profit of the few and property and state taxes have exploded along with the cost of electricity. Some progress!

It is up to you to keep Hawaii safe and to Turn Down Carlyles' application to purchase Verizon and operate their telecommunication company here in our State. It's enough already that they own CRX freight lines.

We need intelligent regulation here in Hawaii and not rampant privatization...Carlyle can buy Idaho's telecommunications and turn their beautiful Bruneau Wildlife Sanctuary into a bombing range for Mountain Home Air Force base...the ecosystem here is just too fragile.

Mahalos for your consideration!
